Seafood

Due to the general restrictions we are undergoing, we have a limited variety of fresh seafood. If you require a seafood that is offered at the moment, please give us a call and we will fulfill your special request.

Prepared Food (Menu)

Since we will have no sit down, our menu will be reduced to the most popular items (platters, sandwiches, etc).

Produce

We will be able to deliver a new array of produce to our customers' houses, together with fresh seafood, in our refrigerated truck: greens, arugula, baby kale, baby spinach, mushrooms, potatoes, tomatoes, onions, etc. Selection will change upon availability and demand. If you want to know what is available, please check our website.

Hygiene and Protective Measures

You can rest assured that all food preparation will happen under the strict hygienic measures set forth by the Department of Health and CDC- we will have limited staff on site and we are using gloves and social distancing.
